Insurance Values and Protection Against Inflation

It is very important that you insure your business at its correct value. You should review and update your cover periodically to ensure it remains adequate. If you underinsure you may receive a reduced payment in the event of a claim.

All Contents (other than Stock and Goods in Trust) should be insured for their replacement value as new (excluding betterment). When assessing your overall sum insured, you should take into account a sum for all Stock, including, but not limited to Furniture, Fixtures and Fittings, Shop Fronts, Improvements and Decorations, Personal Effects and Plant and Equipment.

Buildings should be insured for the cost of rebuilding, not for their market value. A sum should also be added for Architects' Fees, Debris Removal, the cost of meeting any Local Authority requirements and Loss of Rent, where applicable.

The Policy is automatically index-linked where applicable, to protect the value of your insured property against the effects of inflation. This means the amounts insured are adjusted annually to reflect changes in the index tables.
