IN-GAUGE INSURANCE – TAILORED BUSINESS PACKAGE

INTRODUCTION

Morgan Richardson Ltd., Insurance Brokers are members of the Engineering Industries Association and have been arranging insurance for the Commercial Market for many years. “In-Gauge” is a tailored insurance package representing outstanding value specifically devised and designed for businesses in the Engineering Industry.

It brings together the Property, Business Interruption and Liability covers you would expect from a Business Package Policy - plus it is loaded with extra features.

The insurance is arranged with one of the strongest organisations in the industry providing financial security and stability to match.

Insurance Values

It is very important that you insure your business at its correct value. You should review and update your cover periodically to ensure it remains adequate.

The basis of settlement for Stock and Goods in Trust is the Cost Price. Machinery and Plant and all other Contents will be insured for Reinstatement Value and with no Average Condition applying (Underinsurance Condition).

Your sum insured should take into account a value for all Machinery, Plant, Fixtures and Fittings, Improvements and Decorations, Personal Effects and Equipment.

Buildings, including Landlords Fixtures and Fittings should be insured for the full rebuilding cost, not the market value. You may need expert advice to calculate the rebuilding cost, which often differs significantly from market value. A sum should also be added for Architects’ Fees, Debris Removal, the cost of meeting any Local Authority requirements and Loss of Rent, where applicable.
